November 30

Presented by the

# ABQLA

L'Association des bibliothécaires du Québec  
Quebec Library Association

The ABQLA School Section is proud to present School Library Advocacy with Deb Kachel. Formerly the District Library Supervisor for the Ephrata Area School District, as well as a high school librarian for 34 years, she is actively involved in school library advocacy. In addition to the articles she has authored on the subject, she has also written and facilitated an online school library advocacy program for school administrators.

Ms. Kachel will be speaking to the attendees over Skype about the challenges of advocating for school libraries, as well as preventative and reactive measures librarians can take to ensure their libraries continue to thrive.
